Subject: EPA R6 Dive Team request for TCEQ assistance

Linda,

The EPA R6 Dive Team is wanting to do some recon of the San Jacinto River Waste Pits site and would like to have a functional boat & operator available to visit the site along the river. Please let me know if you can help.

The boat would be needed on Monday June 29, 2015 for about half a day. It would carry a maximum of three EPA employees around the waste pits for a visual inspection of site conditions.

The EPA Dive Team is currently gathering information for a future planned sampling event and underwater cap inspection sometime in the Summer of 2015.

Your continue support for this site is greatly appreciated!

Sincerely,

Valmichael Leos
Remedial Project Manager
